

**RDAQ Pre-conference workshop: Management of dental
emergencies in rural settings**

Thursday, 20 June 2023

Brisbane Convention & Exhibition Centre

Overview

This workshop is designed to educate rural General Practitioners (GP's) in the management of dental emergencies so that participants are able to better understand and integrate the treatment of dental emergencies into emergency care. GPs in rural and remote communities provide on-call after hours emergency medical care for their communities, most of which have only visiting dental services which outreach from larger regional centres.

Facilitated by: Dr Tony Skapetis

This workshop has been accredited by:

RACGP: 7.5 Educational Activities + 1 Reviewing Performance

ACRRM: 7 Education Activities + 1.5 Reviewing Performance

Management of dental emergencies in rural settings program

Facilitated by: Dr Tony Skapetis
